

## Livestreaming events

Livestreaming lets you link people into services, seminars or other events without needing to be physically present. This meets the Covid-19 rules for social distancing.

### Examples of livestreaming

By YouTube: [Lakemba Mosque](#) and [St Mary's Cathedral](#)

By Facebook Live :[Antiochian Orthodox Church](#)

Other examples: [In Church](#), [Faith Baptist](#), [Hope Point Church](#), and [Hillsong Church](#)

See also this excellent article from [Plum Village](#)

### Equipment for the host

- Video /audio input (computer, (video) camera, microphone, mobile phone)
- An internet connection
- Access to a livestreaming service (see below)

### Equipment for participants

- A computer or a mobile phone with internet or mobile phone access.

### Some commonly used livestreaming Services.

**Facebook Live:** for reaching people with Facebook accounts using computer or mobile device. For instructions see [Hubspot](#), [Facebook](#) or [Techsoup](#)

**Zoom Meeting:** good for interacting with participants, via computer or mobile device. The host but not the participant needs a Zoom account. Instructions [here](#).

**Instagram Live:** for reaching people with an Instagram account via mobile only. For instructions see: [Instagram](#) or [YouTube](#).

**YouTube Live:** requires computer with webcam or regular camera and a YouTube account for the host. For instructions see: [Google](#) and [YouTube](#)
